INTENSITY RATHER THAN EBULLITION.

A MARKED characteristic of the vast audience in the Airdome yesterday afternoon when the Liberty Bond drive was in progress was not the wild enthusiasm of the people. They sat as decorously as in church, merely handclapping when a telling point was made by a speaker or when he rounded off a period with an appeal to higher patriotism.

Yet this same audience as it passed out subscribed for eighty additional bonds, although the town had been worked by sixteen committees and hundreds of those present wore the bond button. Tonopah is not enthusiastic over the war; it is only desperately determined. So is all of Nevada. This state has the best record of any in matters of patriotism. It is an old story, but it may be reiterated that the hundreds of millions of dollars from its mines during the Civil war and the two new votes, cast for unionism, actually saved the nation. That is why Nevada is known as the battle-born state. The United States might also be appellation as a Nevada-saved nation.

When the war was declared against Spain this state far exceeded its quota of volunteers, with its enlistment in the regulars, is First Nevada Cavalry and its Troop M of Torrey's Rough Riders, commanded by Captain Linscott and Captain Cox, respectively. In addition was its Nevada battalion, although the latter, kept in cantonment for months, was not called to the front. At all events it largely exceeded the quota. Now comes the world war and Nevada again leads the nation. It was the first state to oversubscribe the first Liberty Bond and the indications are that it will stand equally well with the second, for the Boy Scouts of the First Baptist church in Reno have shown the way. They have placed Reno as the fifth city in the nation for bond subscriptions secured through Boy Scout efforts, and when one considers the fact that there are hundreds of towns in the Union larger than Reno, that was a most remarkable as well as a commendable performance.

But where Nevada showed at its best was in the response to the call to arms. Seventeen hundred of its sons have already voluntarily enlisted and more are taking the oath daily. This makes more than 500 per cent in excess of the quota. A New York congressman, Sulzer, we think was his name, arose in the house and protested against the admission of Arizona to statehood, saying that the mistake of admitting Nevada should not be repeated. If any mistake was made it was the admission of that nestled of Tories, New York.

IF DEMOCRACY IS WORTH WHILE.

THE half million volunteer members of the Food Pledge Enrollment organization who will during the week of October 28 to November 4 visit every household in America and endeavor to have every family of the nation register for food conservation are as truly a supply division as that half million which will stand back of the American army in Europe and see that the soldiers' rations reach them on the line and in the trenches. America must send to Europe the food on which our allies subsist while they fight with us the war for democracy, or the war will be lost. We have plenty; they hover on the brink of starvation. Food will win the war; the lack of it will lose the war.

We have plenty if we choose to send it. But we can not send it unless we take concerted action to gather it and make it available. And we can send only certain kinds of food—those that concentrate the most nutritive value into the least shipping space. Wheat, beef, pork, dairy products, sugar; these we must send. Seventy per cent of our people, Herbert Hoover says, live on so economical a margin that it is impossible for them to save any food in the ordinary acceptance of the term. The other 30 per cent of us are food wasters to a greater or less degree, and they must eliminate that waste or be responsible for increasing the difficulty of the fight for freedom in the world. But all of us can help to amass the store of food that must be sent to our allies if their armies and ours are to win. We can do this by eating less of the foods that we must send to Europe and more of those that we have in abundance. We must substitute other cereals for wheat; poultry and fish for meat; vegetable oils so far as possible for butter and lard; syrups for sugar, and eat freely potatoes, fruits and fresh vegetables.

That is the gospel which the food administration is preaching to a democratic nation. It is endeavoring to persuade Americans to do by democratic methods what never before in history has been done except by autocratic methods. Food control by ukase, by command from above, is a comparatively simple matter. Food control from below, by the voluntary decision of the individuals of the nation, is a far more difficult accomplishment. When the United States succeeds in doing this we shall have proved that the ideal on which our government is based is sound. If we should fail we would prove that for such a crisis as the world now faces only the methods of autocracy are effective. Democracy would be exposed as a failure in the supreme test. Can we prove that democracy is safe for the world?

The half million Food Pledge campaigners who have volunteered to gain the allegiance of the twenty-two million families of the nation to this standard of American ideals are workers for a world cause, and every American man and woman who perceives what lies behind the simple pledge "to carry out the directions and advice of the food administration in my own home, in so far as my circumstances permit," will be ready and eager to sign when the Food Pledge solicitor offers the pledge card.

TONOPAH ON MILITARY ROAD.

ONE of the results of the selection of San Francisco as a naval base, with an appropriation of from \$20,000,000 to \$30,000,000 for improvements, is that it is proposed to build a scenic military road giving a shortcut from the Midland route of the Lincoln highway in Nevada via the Tioga pass. Such a plan would mean much for Tonopah. Not only vast numbers of pleasure auto parties would be diverted this way, but the road would also be used for military operations. The Bonanza hopes that the plan will eventuate in a consummation.

The Nevada-California Power Company

ARRANGE TO STOP DOUBLING OFFICE

(By Associated Press.)

PARIS, Oct. 25.—To prevent members of parliament from holding any other public office, elective or nominative, or from participation in business dealings with governmental departments, a bill has just been introduced into the chamber of deputies. This bill is supposed to have been provoked by recent revelations and rumors regarding the participation by members of parliament in business transactions with different branches of the French government, neutrals, and, it is asserted, even with Germany.

At present the same person may be at the same time a deputy or senator, minister, mayor of a town and a member of the general council of his department. There is nothing which prevents him from engaging in business enterprises with the state, department or communal administrations. This bill is intended to prevent cumulative office holding, excepting that deputies and senators may still become ministers.

ARRANGEMENTS MADE FOR SOLDIERS' BOOTS

(By Associated Press.)

NORTHAMPTON, England, Oct. 25.—Arrangements are now complete for turning out every week 250,000 pairs of standard boots made of leather, as soon as the government gives the word for the work to be started.

There will be three grades of men's boots at prices ranging between \$1.88 and \$2.35. Women's shoes will cost them from \$1.88 upwards and boots from \$1.80 up.

It is expected that children's boots will be turned out in greatest quantity at first, owing to the shortage.

There will be no wood fibre, canvas or patent substitutes in these standard boots. Leather will be used throughout.

NO FOOTBALL GAMES LOOM IN PROSPECT

BOYS DECIDE TO SETTLE OLD SCORES BEFORE SCORING AGAIN.

The Tonopah High school has decided to eliminate football from the list of activities for the current year. The boys find themselves in debt from last year's athletic contests and do not feel they can go to any expense this year until the old debt is wiped out. Reno early in the season had asked for a game at Reno this year, to be repaid by a game in Tonopah next year, and the invitation was accepted. The Tonopah boys were in practice for this game when Reno sent word that they could not finance the game this year. Bishop finds itself in the same condition financially, and Goldfield has been unable to have a team this year at all. It seems that people are too much engrossed in the serious things of life to have much heart left for matters that to them appear unimportant. The Tonopah boys are not at all downcast over the result of the season, as they also have plenty to do that is worth while.

MONTANA SILVER MINES TO RESUME

(By Associated Press.)

DILLON, Mont., Oct. 25.—High prices of silver may cause the resumption of operations in a number of abandoned silver properties in this section. In the vicinity of Argentina, mining men say are many that would prove profitable under present prices. In the old days this was one of the largest silver-producing districts in the state.

The slag dump from an old silver smelter is being shipped for re-smelting. It is said the returns from this are high in silver, with a small percentage of gold.

COUNTY AUDITOR'S AND TREASURER'S QUARTERLY REPORT.

To the Honorable Board of County Commissioners of Nye County, State of Nevada: Gentlemen,—Herewith please find Treasurer and Auditor's Report for the quarter ending September 30, 1917.
